SOOTHING AND HEALING

BALSAM.

This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear-Ache, Deafness, and Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin.—For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Diphtheria.

No person need fear to use this medicine, as it is PURELY VEGETABLE in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING

SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no bluing required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

BRIGGS & BRO'S

Illustrated and Descriptive Catalogue

OF FLOWER & VEGETABLE SEEDS,

And SUMMER FLOWERING BULBS FOR 1871.

Will be ready for mailing by the middle of January, notwithstanding our great loss of type, paper, engravings, &c., by fire, which destroyed the Job Printing office of the Rochester *Democrat and Chronicle*, 28th December, 1870. It will be printed on a most elegant new-tinted paper, and illustrated with nearly

Five Hundred Original Engravings,

And two finely executed Colored Plates—specimens for all of which were grown by ourselves the past season from our own stock of Seeds. In the originality, execution and extent of the engravings it is unlike and eminently superior to any other Catalogue or "Floral Guide" extant.

The Catalogue will consist of 112 Pages, and as soon as published will be sent free to all who ordered Seeds from us by mail the last season. To others a charge of 15 cents per copy will be made, which is not the value of the Colored Plates. We assure our friends that the inducements we offer to purchasers of Seeds, as to quality and extent of Stock, Discounts and Premiums, are unsurpassed. Please send orders for Catalogues without delay.

Our Colored Chromo for 1871

Will be ready to send out in January. The Chromo will represent Forty-two Varieties of showy and popular Flowers, of natural size and color. We design to make it the best Plate of Flowers ever issued. Size, 19x24 inches. The retail value would be at least Two Dollars; we shall, however, furnish it to customers at 75 cents per copy, and offer it as a Premium upon orders for Seeds. See Catalogue when out.

Mode of Empanelling an Impartial Jury.

Questions alternately by the court, the State's attorney and the defence, as usually answered by an "intelligent juror."

"Are you opposed to capital punishment?"

"Oh, yes—yes, sir."

"If you were on a jury, then, where a man was being tried for his life, you wouldn't agree to a verdict to hang him?"

"Yes, sir—yes, I would."

"Have you formed or expressed an opinion as to the guilt or innocence of the accused?"

"Yes, sir."

"Your mind, then, is made up?"

"Oh, no—no, it ain't."

"Have you any bias for or against the prisoner?"

"Yes, I think I have."

"You are prejudiced?"

"Oh, no—not a bit."

"Have you ever heard of this case?"

"Think I have."

"Would you decide, if on the jury, according to the evidence or mere rumor?"

"Mere rumor."

"Perhaps you don't understand; would you decide according to rumor or evidence?"

"Evidence."

"If it was in your power to do so, would you change the law of capital punishment or let it stand?"

"Let it stand."

The court—"Would you let it stand or change it?"

"Change it."

"Now, which would you do?"

"Don't know, sir."

"Are you a freeholder?"

"Yes, sir; oh, yes."

"Do you own a house and land, or rent?"

"Neither—I am a boarder."

"Have you formed an opinion?"

"No, sir."

"Have you expressed an opinion?"

"Think I have."

The court—"Gentlemen, I think the juror is competent. It is evident he has never formed or expressed an opinion on any subject."

"Buy me, and I'll do you Good."

NEWPORT DAILY NEWS.

TUESDAY, March 7, 1871.

CAUCUS.

NEWPORT, March 6, 1871.

THE ELECTORS of the NATIONAL UNION REPUBLICAN PARTY are requested to meet at the STATE HOUSE, on TUESDAY EVENING, 7th inst., at 8 o'clock, to elect six delegates to the ensuing State Convention.

WM. A. STEDMAN,
Members R. C. Committee,
for Newport.

Adjournment of Congress.

The Forty-first Congress has expired. At 12 o'clock, Saturday, the two presiding officers declared it at an end, and immediately the Forty-second Congress takes its place. We are told that the last hours of the Forty-first Congress were spent in a far more respectable manner than what has been the case with former Congresses. Nobody was very drunk; and all, as a general thing, attended to their business. The last business of importance transacted by the House, was the passing the Appropriation Bill, which was received from the Senate at a late hour. Several attempts were made, in the hurry and confusion of the last moments, to get a few "land grant" bills through, but they all signally failed. The Forty-first Congress has shown a measure of reform in this direction, worthy of commendation. Although there have been above a dozen bills introduced during the session, involving the giving away of millions of acres of public domain, but one has succeeded in becoming law. The Southern Pacific Railroad bill was passed during the last days of the session, to which road 13,000,000 acres were granted. This we believe to be a deserving enterprise, and one as well worthy of assistance as either the Central or Northern Pacific roads.

The Senate attempted to pass the House bill abolishing duty on coal, but the High Tariff men were prepared to murder it, which they successfully accomplished. Immediately on the bill being called up, Mr. Warner, of Alabama, moved an amendment in favor of amnesty, and proceeded on an all day speech to kill the bill, by talking against time. It was debated by himself and others until five o'clock, Saturday morning, when the Senate took a recess preparatory to the final adjournment.

The Coming Yachting Season.

The New York *Leader* says there is abundant evidence that the approaching yachting season will be prolific of great events. The spirited contests of last summer, which demonstrated the skill of our gallant yachtsmen and the superior build of our fast boats, had a most quickening influence. And this result would have been attained if Mr. Ashbury, the representative yachtsman of England, has succeeded in bearing away from our shores the prized Queen's Cup. A new life and vigor was given to this manly and useful sport by the splendid regattas Mr. Ashbury's visit occasioned; and under the able management of the officers of the New York Yacht Club, the eclat then gained is having its proper effect. Our yacht squadron achieved a signal triumph over the best and fastest vessel in the English fleet; and whether or no our nautical cousins remain content with the result of the splendid contests, the victor will be certain to find, in the coming summer, many eager contestants for the laurels he so gallantly won. There are several new yachts soon to be launched, and some are already afloat, which it is confidently believed will show points of excellence both in light and heavy weather which have not yet been attained. At least we have every reason to expect that in the build of these new craft there will be a manifest improvement over the fine specimen of pleasure boats already afloat in our waters. And if, by actual experiment in friendly contests on our coasts, this is proved to demonstration, we will have every reason to be proud of our yachtsmen.

There is no other sport so beneficial to young men of wealth, and perhaps none so agreeable, as yachting; and certainly there is none which does more for the country. The development of marine architecture concerns the whole nation, while the rough but exhilarating experience which our yachtsmen have in their annual cruising is of inestimable benefit to them. And it must not be forgotten that, while yacht building and yachting afford employment to a great number of persons left idle because of the stagnant condition of shipbuilding, our marine architects are constantly prompted to higher ideas and correcter taste in the construction of fleet ships. This last is no small consideration for a people who remember the triumphs of American ship builders in the past, and who are desirous of maintaining our conceded superiority in this respect. In view, therefore, of these manifest advantages, yachting should increase in popularity year by year, and receive every encouragement. We have no doubt whatever that the coming season will far surpass the last, and that in a few years we will have in all our maritime cities yachts equal in number and elegance to those which now make up the fleet of vessels that constitute the New York Club.

Civil Service.

Although but little, it will be seen that Congress has done something, towards this needed reform. The measure gives the President great power. If he is so disposed he can give the system a fair trial, and convince the nation that the reform can be carried out to the advantage of all. The following is the section relating to the Civil Service provision, attached to the Appropriation bill:

That the President of the United States be and he is hereby authorized to prescribe such rules and regulations for the admission of persons into the civil service of the United States as will best promote the efficiency thereof, and ascertain the fitness of each candidate in respect to age, health, character, knowledge and ability for the branch of service into which he seeks to enter, and for this purpose the President is authorized to employ suitable persons to conduct said inquiries, to prescribe their duties, and to establish regulations for the conduct of persons who may receive appointments in the civil service.

It is officially announced that a treaty of commerce between Italy and the United States has been ratified.

Staten Island.

New York don't want to lose any of her territory. Here is what the New York *World* says to the proposition in the Trenton Legislature in favor of annexing Staten Island to New Jersey. "Whether the Island is to be captured and absorbed like Alsace, or bought up like Santo Domingo, is not stated, but it is evident that New Jersey means mischief. New York cannot calmly submit to the spoliation of her territory. There was a time when we would have parted with Staten Island. It was when it had a yellow-fever hospital and the State authorities were dreadfully badgered about having it removed. We would gladly have turned the turbulent isle over to the care of our neighbors, and wished them luck with their acquisition. But New Jersey bristled all over at the simple suggestion then made that the hospital should be located on her own shores, and we were driven to the necessity of building a new island for the especial accommodation of the yellow-jack patients. This course has not tended to make New York amiable. There is really but one possible inducement we can see to let Staten Island go. Its stalwart Democracy are numerous enough to redeem New Jersey from the sad Radical slough into which she has fallen."

If Staten Island is not enough to turn the scale in favor of Copperheadism, they might throw in one Ward of New York City and the whole State would be sunk past all redemption.

New York to New Orleans in Sixty-two Hours.

One of the most prominent railroad enterprises of the day is that of the Alabama and Chattanooga line, which will be completed on the 20th inst. With its connections it will form the shortest all rail route from Boston, New York, Philadelphia, Baltimore, Washington, Lynchburg, and Chattanooga to Meridian, Mobile, New Orleans, Vicksburg, Shreveport, Galveston, and all points in the Southwest. Arrangements are now being perfected with connecting roads, north and south, to run passenger trains at the rate of twenty three miles per hour, making the trip from New Orleans in sixty two hours. Two daily through passenger trains will be run each way, making close connections at Chattanooga for all points east and north, and at Meridian for points south and west.

In bringing the South into closer connection with the North, this railroad will play an important part. Our merchants and business men generally will sustain the enterprise by throwing in its way all the patronage which they are able to bestow, and which an enterprise of its character so richly deserves.

Romantic Courtship and Marriage.

Guizot's courtship and marriage were singularly romantic. At the house of the editor of a periodical for which Guizot wrote, he often met a young lady named Pauline de Meulan, who, like him, supported herself by her pen. Mademoiselle de Meulan fell ill; she was the main stay of her mother and sisters, and during her forced abstinance from literary labor, the whole family were in danger of falling into distress. One morning she received a long paper, in a disguised hand, but in precise imitation of her own literary style, with a note stating that while her illness continued articles equally suited to the magazine on which she was engaged would be forwarded to her. When Mlle de Meulan recovered her health, she made every effort to discover her unknown benefactor, but in vain. At length he presented himself; it was the shy, austere man of letters, whom she had met so often at the editor's house; and shortly afterw ard Mlle Pauline de Meulan became Madame Guizot.

The New Territory.

The law which creates a new government for the District of Columbia does not change its name. Under it the President has the appointment of a governor and a secretary, who is in fact lieutenant governor, for four years, and of an upper house of legislature, of eleven members, is to be chosen by the people, and to hold for one year.

The President has also the appointment of a board of public works, of four persons who are to hold for four years.

The charter also provides that the officers appointed by the President to be paid by Congress; all others are to be paid by the District.

Manhood suffrage and free schools are made imperative; taxation is restricted to two per cent. on the valuation; and the debt of the District to five per cent. on the valuation. Congress reserves the right to legislate if it pleases, and special legislation is strictly forbidden.

A delegate, elected by the people is to be always a member of the Committee on the District of Columbia.

The persons appointed by the President seem to give general satisfaction in Washington; and under the new charter or constitution there is reason to hope that the capital and its suburbs will receive the improvement and adornment of which they are capable and which they deserve.

The treaty between France and Germany makes Louis Napoleon a free man. The cable reports him on his way to Switzerland, where he owns a magnificent chateau. The ex-Emperor would do well to bring his wife, boy, and carpet-bag to New York, and take up his old quarters at the Astor House. Between reading the World and interviewing Major Muldoon, he might manage to pass his time pleasantly and profitably. Let Stetson invite him over at once.—*World.*

The *World* certainly would be fit reading for the great Humbug of Europe, but were he a man less worthy the hatred of all good men, our hearts would condemn us for subjecting him to such an beard of punishment.

The North Carolina house of representatives has appointed a committee to investigate charges against E. W. Jones, judge of the second district in that state. The charges grew out of occurrences in the magistrates court in Washington county, wherein Judge Jones was a defendant, and was charged with drunkenness and assault on a colored woman.

About Home.

DOWNWARD.—Red Ash is now sold at our coal yards for $10.00 per ton, and White Ash $9.60.

FESTIVAL.—The Spruce Street Church will give a Concert and Festival in Eureka Hall this evening.

SAILED.—The vessels which have been in our harbor for the past week waiting for a fair wind, sailed this morning.

A DENIAL.—Many of our coal dealers feel quite indignant at the assertion made by certain parties, that a "ring" exists among the coal dealers of this city.

GETTING READY.—Schooner *David G. Floyd*, which has been laid up at Perry Mill Wharf for the past winter, is now being fitted with her sails and otherwise being prepared for her summer trip.

AMUSEMENTS.—There are three musical entertainments to come off in this city, this evening; the City Council, the Republican Caucus and the Mendelssohn Quintette Club. Our readers will, of course, take their choice. We go to hear the Mendelssohns.

PERSONAL.—Rev. Dr. Cheney, President of the Bates College, Lewiston, Maine, will be in town this afternoon. The probable cause of his visit is to induce Rev. Mr. Malcom of the Second Baptist Church in this city, to accept of a professorship in the College.

THE WEATHER.—We would write an essay on this fruitful subject, this morning, but unfortunately essay writing is one of the "Lost Arts," with us. Indeed we believe, come to think of it, that it was an art we never found, consequently, we will only say for the benefit of the public, that this is a pleasant day.

CURIOSITY.—Mr. O. L. Hammett showed us this morning a novel thing in the printing art. The London *Times* and Harper's *Weekly* printed in microscopic letters. One page of the *Times* measures 3 1-2 by 4 1-2 inches, and the size of Harper's is 1 3-8 by 2 1-8 inches. Yet so perfectly is the work executed that they can be quite rapidly read without the aid of a magnifying glass.

CRUELTY TO ANIMALS.—A heavy dray, loaded with boards, became fast in the mud on Spring st., near St. Mary's church, one or two evenings ago, and the driver fiercely endeavored to compel the one horse to pull the load, making a free use of oaths and severe blows. Such conduct is brutal, and needs the polite attentions of some local Henry Bergh.

THE CONCERT THIS EVENING.—Our readers hardly need to be reminded, that the second and last concert of the Mendelssohn Quintette club comes tonight. By particular request, they will again be accompanied by the same vocalist, Mrs. Weston, who was received with so much delight at their previous concert. The reserved seats are nearly all taken up; but it is well known to those who have tried the experiment, that the gallery seats are quite as good for hearing the music, and some connoisseurs choose them in preference to the others.

The programme for to-night includes another of those flute solos, which were so much admired last time, and a violin solo by the favorite in Newport, William Schultze, Mrs. Weston will sing an air from Mozart's Marriage of Figaro, and the charming Irish ballad "What will you do love?" besides an English ballad.

The three masted Sch., *Henry Hobarth*, arrived in this harbor from Mobile, on Friday last. She leaks 2,000 strokes per hour. She will discharge her cargo, and repair, before proceeding. Her cargo will be shipped to Boston.

Literary Notices.

BALLOU'S MAGAZINE.—The April number of this superb family magazine is already issued, and contains a list of contents such as will please every one, old and young. "The Rivals on the Deep," which will be found in the April number, alone is worth more than the price of the whole magazine. It is the best story that has been writ ten this year. But all the tales in "Ballou's Magazine" are good. It is for sale at all the periodical depots in the country at 15 cents per copy.

THE AMERICAN EXCHANGE.—The February number of this magazine contains among other things of interest, "An Educational Reformer," "Bolivia and Brazil in the Amazon valley" "American History," "Colorado" &c., &c., It is a good number.

MARK TWAIN'S BURLESQUE AUTOBIOGRAPHY AND FIRST ROMANCE, a pamphlet of 48 pages, illustrated, has been issued by Sheldon & Co., New York, and is for sale by Chas. H. Hammett Jr. This book is well worth the reading.

BLACKWOOD'S for February, contains—What We May Learn; Frank Marshal; Red River Expedition, concluded; The Study of Greek; Fair to See, II; Cornelius O'Dowd; New Year's Musings; Wake, England, Wake; Position of the Government. Leonard Scott Publishing Co., New York.

LITTELL'S LIVING AGE, No. 1396, contains—The Political Lessons of the War; The Gamut of Light; General Trochu; Mendelssohn at Buckingham Palace; The North German Arctic Expedition; the continuation of Seed Time and Harvest, or During My Apprenticeship; besides shorter articles and poetry.

THE SUNDAY MAGAZINE, for March, edited Thomas Guthrie, D. D., has continuations of Dr. Blaikie's Impressions in America, and your Life and Mine. The other articles are—Indifference; The Lord Careth; How to Study the Old Testament; Threescore Years and Ten; Abraham's Sacrifice; Tares and Wheat; William Cowper and his Hymn; Power on the Woman's Head Because of the Angels, &c. J. B. Lippincott & Co., publishers, Philadelphia.

THE GOLDEN AGE, Theodore Tilton's new paper, is a quarto, with four broad columns to a page, well filled with interesting articles by the editor and other well-known writers. The prospectus is short and to the point, that it is devoted to the free discussion of all living questions in church, state, society, literature, art, and moral reform.

An advertising scheme was gotten up in New York, not long since, by parties who guaranteed to circulate 10,000 copies of the publication in a style agreed upon. Five advertisers were found who took the entire space offered. Fifteen copies of the paper were printed, and the bona fide circulation was exactly five copies—one to each advertiser.

An advertisement in a daily newspaper is a good barometer of the condition of business. The other day an advertisement for a carpenter, published three times in a Boston paper, brought two hundred letters and forty personal applications. A single advertisement for entry clerk in a New York paper brought out six hundred and seventy applicants.

It is announced that Judge Chase will spend the summer and fall in Europe. He continues in feeble health, and although he is expected in Washington soon, his friends have little hope that he will be able to assume his judical duties this spring. A rest from the labors of the bench and a visit abroad, it is thought, will wholly restore his health.

A Louisville German, quietly sipping his beer and playing "sixty six" in a saloon, is informed by an excited compatriot, rushing in, that his horse has run away. "Ach! If dot horse git schmash up my vife gif me Hail Columbus, aint it?"

The case of the Tennessee members of Congress is peculiar. There being no other way to prosecute the investigation of the manner of their election, they were sworn in on Saturday, and their credentials were referred to the Committees on Elections. The Congressional elections in Tennessee were fixed by the Republican legislature first elected after the war in November. The democratic legislature which succeeded, in its haste to undo all that its opponents had done, repealed the law, apparently with the intention of restoring the old election regulations, but neglected to make suitable provisions.

The Charlottesville (Va.) Chronicle of Saturday, says a most extraordinary explosion took place here a few days ago. A woman living in the suburbs had a goose of which she made a pet, and would shoot grains of corn, bread crumbs, etc., at him, all of which he shoveled up greedily. On the day in question his gooseship came to grief by this great habit of his. Some little boys were throwing large torpedoes about, and one of them dropped without exploding; the goose took it for a grain of corn, and gobbled it up in a twinkling, but in swallowing it exploded blowing the whole top of his head off.

Burning and Shaking.

By a ridiculous misapplication of language, invalids are sometimes said to "enjoy very poor health," but it is not on record that any human being was ever spoken of as enjoying chills and fever. And yet there are thousands, at this moment, in one or the other of the two stages of the disorder, who might just as well have avoided it as not. If there is anything demonstrable in therapeutics, it is that Hostetter's Stomach Bitters is an antidote to intermittent fevers. No instance can be cited in which it has been taken, either as a safeguard against this class of diseases or as a remedy for them, and failed to produce the desired effect. The season when malarious fevers are rife, has commenced, and no inhabitant of any district subject to their visitations should be without this great preventive and remedy. Indeed, it is a most potent protection against all the ailments which prevail in the spring months. From marsh and pool, and from all moist soils are now rising the exciting elements which give birth to fever, indigestion, biliousness, colics, and a whole host of epidemic and other maladies. Aid the system to resist them. Energize and regulate all the animal functions with this reinforcing agent. This precaution is as necessary in cities as in new settlements, for malarious fevers are now almost as common in the great centres of population as on the borders of the southern bayous and marshes and the rich agricultural regions of the west. The preventive and remedy is accessible to all. Who will be unwise enough to brave recklessly the danger it would avert?

THOMPSON'S POMADE OTTER, as a dressing for the Hair is all that is required: purely vegetable and highly perfumed, it softens, improves and beautifies the Hair, strengthens the roots, and gives it a rich, glossy appearance. For sale by all druggists. Price 25 and 50 cents, per bottle.

CHINESE TOOTH ACHE DROPS, put up by F. C. Wells & Co. This article has been used for many ages by the Chinese as an infallible and almost instantaneous cure for that most painful affliction.—For sale by all druggists. Price 25 cts. per bottle.

BOSTER'S BALSAMIC MIXTURE OF CUBEBS AND COPAIBA.—This favorite, well-known and reliable remedy for the speedy cure of "*the complaint*," is for sale by all druggists. Price $1 per bottle.

SHERMAN'S CORDIAL AND WORM LOZENGES, SHERMAN'S POOR MAN'S PLASTERS AND ORRIS TOOTH PASTE are still to be obtained from any druggist's, prepared from the original receipts, and sold at the old prices. febl7-ndj

To all the house-keepers, we continue the offer of the WEED SEWING MACHINE, quoted as one of unsurpassed excellence, for twenty new subscribers and $65. Sixty dollars is the price for this superior instrument. We have sent many of the WEED Machines for new subscribers, in some cases to great distance,—to Colorado and California. They have given the highest satisfaction to those who have used them.—*Boston Watchman and Reflector.*

Neuralgia and Headache can be cured by taking a dose of BARTON'S LOTION and Bathing the part affected. Hundreds of bad cases have been cured by thus applying this valuable medicine, and none will be without it who have used it once. For sale by Druggists generally. m2

An Old Custom, but a Sensible One!

In former years the heads of the household would call up and administer to every member some favorite medicine and tonic, to prevent the diseases that follow the change from the cold winter to the gentle spring. That custom ought to have been handed down from generation to generation, and we now advise its continuance, by the use, as the spring opens, of Roback's celebrated remedies. His Pills, Panacea and Bitters will prepare the system for the change.

A LADY writes:—"Before having tried Pratt's Astral Oil, I was prejudiced against it. But I was finally induced by a neighbor to try some. That was six months ago; since then I have been burning it constantly. Two nights ago, one of my little girls, while playing, upset the lamp, scattering the oil over her and her sister, but no harm resulted, the oil neither taking fire nor exploding. I am satisfied that the oil is perfectly safe."

The above is but one of many similar testimonials. Don't endanger your lives by burning kerosene, but buy Pratt's Astral Oil. By using this, danger is guarded against.

In Wet Weather the pegs in a boot will swell, in dry weather they shrink;—this renders the boot liable to rip or gape. The ingenious CABLE SCREW WIRE fastening obviates these difficulties, besides furnishing a more durable, economical, dryer and better fitting boot. Ask any dealer for the Cable Screw Wire Boots and Shoes.

THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & CO'S TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

Fresh Garden, Flower, Fruit, Herb, Tree & Shrub, and Evergreen Seeds, prepaid by mail, with directions for culture. Twenty-five different packets of either class for $1.00. The six classes $5.00.

☞ Undertakers grow rich and grave yards reek with the mouldering bones of thousands who prematurely fall as victims to those relentless destroyers, Catarrh, Bronchitis and Consumption. The two latter diseases are but the children of the former, which is easily and surely cured by using Dr. Sage's Catarrh Remedy, while for the cure of the two latter diseases nothing equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. Both medicines are sold by druggists, or the Catarrh Remedy may be obtained by enclosing sixty cents to Dr. R. V. Pierce, Buffalo, N. Y.

NO MORE KEROSENE LAMP EXPLOSIONS.

Perfect Safety!

OF

THE

EXTINGUISHING GAS HINGE

BURNER,

WITH THE

CHAMPION CHIMNEY,

The Best Burner and Chimney ever put upon the market.

This Burner having an EXTINGUISHER attached, by the touching of a small lever in the side of the Burner the light is instantly extinguished, thus doing away with the old method of blowing down the chimney and endangering the lives of your family and friends by an explosion—as nine-tenths of all the Kerosene accidents in the United States have been caused by blowing down the chimney. It is also a SELF-EXTINGUISHER, as there is no possible way in which this Lamp can fail that it does not put itself out—so that there can be no fire, even if the lamp should be broken and the oil spilled.

It is supplied with a GAS TUBE, to allow the vapor and gas that may be formed in the lamp to escape, thus rendering EVERY LAMP NON-EXPLOSIVE, in all hands and under all circumstances.

The Chimney, of itself, is worth all we ask for the whole, as it is warranted not to break while in use upon the Lamp. Neither hot or cold air affects it.

The Germans leaving Paris, Etc.

Entry of French Troops into Paris.

PARIS, March 6.

It has been decided to remove the general depot of ammunition from Paris, and to locate it at some point better situated for public defence.

LONDON, March 5. 5 p. m.

A despatch has just been received here announcing that Paris is again quiet. Several trains of French troops have however, passed through Rouen and this place for Paris.

LONDON, March 6.

Yesterday evening, says the Paris correspondent of the London Times, the city was tranquil. Other accounts, however speak of parts of the city as disaffected towards the government. The revolutionary element is reported to be entrenched at Montematre, on the hill of which they have a battery of twenty-seven guns, mounted.—All the approaches to Montmatre are said to be strongly guarded by the revolutionists.—The Germans are evacuating the prescribed Districts of France.

Negotiations for the definite treaty of peace will commence shortly at Brussels.—Favre will be the French plenipotentiary.—It is probable that Von Arnim, acting on the part of Germany, and Baron Bande, as representative of France, and have already settled the main points, but the details will occupy several months.

VERSAILLES, March 5.

Rouen will be evacuated the 12th and the left bank of the Seine on the 19th instant.

A corps of 40,000 French soldiers from the provinces is now marching into Paris, where it will replace the troops of the line and the Mobile Gardes who will commence to leave the capital Monday.

A Civil War and the Restoration of the Orleans Family Expected in France.

VERSAILLES, March 6.

[World special.] Numerous conversations held at Bordeaux and Versailles with the Deputies of the National Assembly, including Grevy, Gambetta and Favre, compel the belief that a civil war will soon occur, ending in the Orleans restoration.

Emigration from the Territory Ceded to Germany.

Extensive organized emigration from the ceded provinces will occur immediately.—Large bodies of Alsacians will emigrate to America.

Emperor William Addresses the Troops.

LONDON, March 6.

At the review of the Prussian guards at Long Champs, the Emperor addressed the troops. He thanked them for the heroism, endurance and devotion they had displayed, and said they must thank Providence for choosing them as instruments to bring to pass events of such magnitude and renown.

The French Prisoners in Germany.

The Dresden Journal says all privates of the Mobile Guard, prisoners in Germany, may return to their homes immediately, if they so desire, at their own cost. Soldiers of the line and Imperial Guards remain interned until arrangements for their transportation are completed.

NEW YORK.

Reverence for the Sabbath.

NEW YORK, March 6.

James Fisk, Jr., gave a grand dress rehearsal of the new opera, "Les Georginnes," last evening, at the Grand Opera House.—The building was crowded with ladies and gentlemen specially invited to attend the scene.

Yesterday was a very lively one among the roughs. A large number of shooting and stabbing affrays, and bar-room fights, were reported by the police. No deaths have resulted.

The arrival of a real black prince from Africa has caused considerable interest among the colored population of this city, and the announcement that he would address them drew together a large number last evening in Shiloh Presbyterian Church.

During her Western trip Nilsson's receipts averaged $4100 per night. She is to sing at Pittsburg and Washington, and will reach here on the 14th.

The streets of New York are now in a horrible condition, and there are fears of much sickness if the warm weather comes on soon.

The *World* invites Napoleon to come with his wife, boy and carpet bag, and make his home at the Astor House. The house is not to pass out of the control of the Stetsons, as reported.

Advices from the coal region say that many of the striking miners are now suffering for the necessaries of life.

The markets at the Stock Exchange opened buoyant, especially that for stocks. Late on Saturday prices were hammered down by the cliques, who did not want to add to their already heavy loads, and also by the large amount of stock thrown out for realizing purposes. The decline, however, was soon succeeded by a smart rally, and at the close some stocks reached the highest point since the present upward movement was inaugurated.

FROM WASHINGTON.

March. 6.

"WELCOME THE COMING, SPEED THE GOING GUEST."

There were a large number of visitors at the executive mansion, including nearly all of the executive members of Congress whose terms are just expired and many new members. The majority of the former called to pay their parting respects to the President, and introduce their successors. The different departments ,today are also thronged with members and ex members.

A RECEPTION BY SENATOR CHANDLER.

Senator Chandler gave a grand reception this evening at his residence. There were present President Grant, Vice President Colfax, Speaker Blaine, all the members of the joint high commission, judges of the Supreme Court, all the members of the Cabinet, Baron Geroft, M. Catacazy, the Russian minister, various Senators and Representatives.—Horace Greely, General Butler, General Pleasanton, Generals Porter and Babcock and others.

REBELS IN THE UNITED STATES COURTS.

The Supreme Court to day gave three decisions establishing the principle that rebels have a right to appear in the United States courts as defendants against suits for the confiscation of their property. Justice Swaine delivered the opinion in the case of McVeigh, from the district court of Virginia proceedings to confiscate McVeigh's property.

PROBABLE APPOINTMENT OF HOUSE COMMITTEE AT ONCE.

A very prominent member of the House expresses the opinion that Speaker Blaine will undoubtedly appoint all the various committees of that body previous to a final adjournment.

FROM WASHINGTON.

THE PROPOSED ADJOURNMENT OF CONGRESS.

THE JOINT HIGH COMMISSION.

WASHINGTON, March 6.

Senators Morton, Sumner and Scott are opposed to concurring in the House resolution to adjourn on Wednesday. They will maintain that Congress ought not to adjourn until some stringent legislation is adopted to break up lawlessness in the South, and protection is afforded to loyal people.

The Joint High Commission met at the State Department today and proceeded with the regular business before them. They will continue in session from day to day until all the business before them is disposed of. It is understood that if all matters brought before the Commission are satisfactorily adjusted, the President will call an executive session of the Senate two or three months hence for the purpose of considering such treaty or treaties as will be made between the two Governments. This will also give the President an opportunity to lay before the Senate the report of the San Domingo Commission, which will have been made, and probably a treaty of annexation.

WASHINGTON, March 6.

The President; it is understood, does not desire the new Congress to remain in session. He is willing to let San Domingo go over till December, where he proposes to submit a treaty to the Senate instead of a joint resolution of annexation.

Many members of the House of Representatives have left town for their homes; in anticipation of an early adjournment.

Secretary Fish is the senior member of the American branch and Earl de Grey is senior member of the British branch; $25,000 is allowed by the sundry civil appropriation bill for the expenses of the American branch. The President will entertain the members of the Joint High Commission at dinner on Thursday evening.

Extraordinary Hail Storm.

NEKOSIO, Ill., March 5.

The heaviest hail storm in the memory of the oldest citizens passed over this place at 12 o'clock on Friday last. The storm was very sudden, with no wind, but heavy thunder, and only lasted a few minutes, but in many places hail fell from two to three inches deep.

AUCTION SALES.

FARM AT AUCTION.

THE HOMESTEAD of the late Pardon Almy, situated in Little Compton, R. I., will be sold at Public Auction, on the premises, on WEDNESDAY, March 8th, 1871, (or if stormy the first fair day,) at 10 o'clock, A. M. The Farm contains about 160 acres with a fair proportion of Meadow and Pasture, and also a portion of a valuable Cedar Swamp. The grounds are well watered, well fenced, and under a good state of cultivation. On the farm is a cottage House, barn, crib, carriage house, and wood house. The situation commands one of the finest prospects in this part of the country, including a view of Mount Hope on the North, the Islands in Buzzard's Bay on the Southeast, the Atlantic Ocean on the South, and Narragansett Bay and the whole length of the Island of Rhode Island on the West.

At the same time and place will be sold the stock and farming utensils, and a small lot of household goods. Also a wood lot in Little Compton, and one undivided half of a wood lot in Tiverton. For further particulars apply to

LEGAL NOTICES.

NOTICE.

WHEREAS, default has been made in the payment of the interest on certain bonds issued by the Newport and Wickford Railroad and Steamboat Company, under a mortgage executed by said Company on 1st May, 1870, to Henry Ledyard, Edward King and John T. Bush, trustees, to secure the payment of said bonds, which mortgage is recorded in the offices of the clerks of the city of Newport and town of North Kingstown, in the State of Rhode Island, and by the terms of said mortgage all said bonds having become due and payable; and whereas, it is stipulated therein that the said trustees shall, on the written request of a majority of the holders of said bonds, cause the franchises and all the corporate property of said corporation described in said mortgage, to be sold at public auction, at Newport, in the State of Rhode Island, after thirty days' notice of the time, place and terms of sale; and whereas, said trustees have been duly requested, in writing, by a majority of said bondholders, to sell the property described in said mortgage according to the conditions contained therein. Now, therefore, the undersigned trustees, as aforesaid, hereby give notice that they will sell all the franchises and corporate property of said Newport and Wickford Railroad and Steamboat Company, as described in said mortgage, at Public Auction, at the City Hall of the City of Newport, in the State of Rhode Island, between the hours of eleven A. M. and one P. M., on TUESDAY, March 7th, 1871. The sale to be to the highest bidder for cash.

Newport, March 6, 1871.

At a Special Court of Probate of the City of Newport, holden Tuesday, Feb. 21st, 1871.

UPON the petition in writing, to this Court, of HENRY S. FEARING, GEORGE B. FEARING and FREDERICK SHELDON, Executors of the last Will and Testament of DANIEL B. FEARING, late of the City, County and State of New York, deceased; by Wm. P. Sheffield, Attorney, presenting therewith an exemplified copy of the said last Will and Testament of him, said Daniel B. Fearing, and of the Probate thereof, as the same appears of record in the office of the Surrogate's Court, in said City of New York, under the seal of said Court, and representing to this Court, that there is real estate named in the said Will, which passes thereunder, situate in the City and County of Newport in the State of Rhode Island, and praying that the said Will and Probate may be filed and recorded in the registry of the Court of Probate of Newport, according to law, and that letters testamentary thereon be issued to them as Executors thereof in Rhode Island.

The same is read and received, and the Court assign Thursday the 9th day of March next, at 3 o'clock, P. M., at the Probate Office in the City Hall, in Newport, as the time and the place for taking the same into consideration, and it is ordered that notice thereof be published for fourteen days, once a week, in the Newport Daily News, to the end that any person may appear and show cause, if any, against the filing and recording the same.

WIT AND HUMOR.

Anecdote of Beecher and Chapin.

Speaking of churches reminds me of an anecdote of Henry Ward Beecher and Dr. Chapin. During their summer vacation, they were travelling a short stage route together and according to their wont—as I may say the wont of all good men on such occasions—rode upon the outside, passing the time most agreeably in genial conversation and in admiring the scenery. At one of the stopping places on the route, a countryman asked them "could they make room for him up there?" which they cheerfully did. Soon after taking his seat Mr. Beecher entered into conversation with him and finding that he had recently returned from a visit to New York, and, to use his own expression, had seen enough of it, asked him if he stopped over Sunday and went to meeting there. He said he had, and went over to Brooklyn to hear a fellow preach; he did not hear his name.

"Henry Ward Beecher?" suggested Dr. Chapin.

"Yes, that was his name."

"How did you like him?" said Dr. Chapin, slyly winking at Mr. Beecher.

"Oh, very well," said the countryman.

"Did you go to hear him in the afternoon?" said Mr. Beecher.

"No; I went up town to hear another big fellow."

"Dr. Chapin?" suggested Mr. Beecher.

"Yes, that was the name."

"And which did you like the best?" said Mr. Beecher, winking at Dr. Chapin.

"Oh, thunder," said the countryman, "Dr. Chapin can preach Beecher right out of his boots!"

You had better believe there was a pretty loud shout went up from that coach for a little while—a shout that astonished the countryman, who failed to recognize his jovial fellow travellers.

NO. 1 FAMILY MACHINE.

THIS MACHINE is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.

It has a straight Needle, Perpendicular Action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the coarsest to the finest number.

SPECIAL ATTENTION IS CALLED TO OUR NEW IMPROVED

Nos. 2 & 3—Manufacturing Machines.

They have been thoroughly tested on every description of Cloth and Leather Work, running by Steam Power at the rate of

1,200 Stitches per Minute.

Producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light and are comparatively noiseless.

The Tailoring or Leather Work we claim that they are not only equal, but much superior to any other machine that has ever been offered to the public.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass., is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

TWENTY YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

No. 21 Endicott Street, Boston.

WATERS'S

New Scale Pianos,

With Iron Frame, Overstrung Bass, and Agraffe Bridge,

MELODEONS AND CABINET ORGANS,

The best Manufactured: Warranted for 6 years.

Fifty New and Second-hand Pianos, Melodeons and Organs of six first-class makers, *at low prices for Cash*, or, one-third cash and the balance in Monthly Instalments. Second-hand Instruments at great bargains. Illustrated Catalogue mailed.—Warerooms, 481 Broadway, New York.

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument.* Stronger endorsement we could not give.—*Home Journal.*

Look Well to Your Insurance!

The possession of a Policy does not always protect a property holder against loss by fire. The subscriber is prepared to issue Policies in Companies that for more than

FIFTY YEARS

have been known to the public as honorable and reliable. One of his Companies is the oldest in the United States and has paid $24,000,000 in losses.—Another has the largest capital, and has paid over $25,000,000. These two, together, have more cash assets with which to pay losses than any ten average companies. Their rates are as low as safety, and honorable dealing will allow, but they do not pretend to compete with "Wild Cat" Corporation.

FIRST MORTGAG 7 Per Cent. Gold Bonds,

On a Completed Road,

FREE OF U. S. TAX,

AT 90 AND ACCRUED INTEREST IN CURRENCY.

Burlington, Cedar Rapids and Minnesota Railway.

The completion of this Road has given to these Bonds an established character equal to any mortgage issue dealt in at the Stock Exchange. We are prepared to buy and sell them at any time, at our Banking House, at market price—thus placing them on the same basis, for temporary or permanent investment, with Governments or any other security.

These bonds are a first and only mortgage on a railroad that has cost double the amount of the issue, and which commands, without competition, all the traffic of Northern Iowa and Southern Minnesota—shortening the distance from St. Paul to Chicago 45 miles, and to St. Louis more than 50 miles.

The net earnings are already largely in excess of interest on the bonds, and no doubt exists that they will more than double within the ensuing year.

A contract has been secured with the Chicago, Burlington and Quincey Railroad Company obligating the latter to invest 50 per cent. of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company. This arrangement is a strong guarantee of the Bonds, and establishes a large sinking fund for their redemption.

The convertibility privilege in these bonds enables them to be exchanged for stock, at par, at any time. This secures to the holder, at his option, a share in any excess of earnings over the interest obligation.

An exchange of Government securities for these bonds returns 9 1-2 per cent. interest, instead of 5 per cent., which is all that Governments pay at present price, besides leaving an immediate gain of about 20 per cent. in price for reinvestment.

All marketable securities taken in exchange free of commission and Express charges.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

NEW 7-30 GOLD LOAN!

Safe! Profitable! Permanent!

JAY COOKE & CO.

Offer for Sale at Par and Accrued Interest the

First Mortgage Land Grant Gold Bonds

OF THE

Northern Pacific Railroad Co.

THESE bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling-stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.

The Bonds are free from United States Tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.

They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and Edgar Thomson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will at all times before maturity, be received AT TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first-class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income *one-third*, and still have a perfectly reliable investment.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.

Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the investor.—For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this Loan.

THE DIAMOND GLASSES,

MANUFACTURED BY

J. E. SPENCER & Co., N. Y.

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the

MOST PERFECT,

Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

The Scientific Principle

On which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner, in frames of the best quality, of all materials used for that purpose.

Their Finish and Durability

Carbolic Tablets,

Prepared by DR. WELLS,

The most important discovery of the age. Is this wonderful HEALING and CLEANSING agent for all diseases or weakness of the RESPIRATORY ORGANS, SORE THROAT, SUDDEN COLD, HOARSENESS, CATARRH, ASTHMA, DRYNESS of the THROAT, or WINDPIPE, DISEASE of the LUNGS and for all irritation of the mucous membrane.

All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.

DR. WELLS' CARBOLIC TABLETS

act directly on the mucous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and lung difficulty.

The proprietors would say, all first-class medicines have their imitations, and they would

CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.

MANHOOD: HOW LOST, HOW RESTORED

JUST PUBLISHED, a new edition of Dr. Culverwell's Celebrated Essay on the RADICAL CURE (without medicine) of SPERMATORRHOEA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY, and Fits, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

PUMPS,

Bells, Keys and Skates.

Friends, to JOHN G. WEAVER, Jr's go,
And there you'll find if you do not know,
Pumps, both Copper, Iron, Lift and Force,
And all for a very little cost,
We also have a Pump that will not freeze,
You raise the handle—water comes with ease.
Bells, have we, and ones that'll ring,
And to your door your servant bring;
Keys, we have too, without number—
We'll fit them too without a blunder;
Skates we sharpen so you need not fall,
This pleases the children both great and small.
And now kind friends don't forget the place.
For the BIG KEY is looking you in the face.
